

# The Right Technology to Focus More on Patient Care – Not Paperwork

Leveraging our specialized tools and in-depth knowledge of your distinct operational needs, we aim to enhance the efficiency of services that Premier Inc. offers to its extensive network of healthcare organizations across the United States.

## WE'RE HERE TO HELP YOU BETTER SERVE HEALTH FACILITIES

To ensure your group purchasing meets its objectives in healthcare, robust operational frameworks are crucial. Access to resources and a reliable partner with the expertise and experience to deliver results are equally critical. As a local business owner, we possess both the necessary tools and the specialized knowledge to address needs – from ambulatory care to specialty centers to physician offices.

Healthcare institutions are currently grappling with challenges such as safeguarding patient data, managing soaring healthcare costs, and navigating time pressures.

With the integration of our latest Multifunction Printers (MFP) built on Xerox® ConnectKey® Technology, specifically designed for healthcare, you can address these daily hurdles. This enables the allocation of more time and resources towards critical patient care and operational excellence within your business.

## OUR EXPERTISE IN HEALTHCARE

We stand at the forefront of document processing and print management worldwide, while remaining deeply rooted in the local community.

This dual advantage ensures that your organization gains access to cutting-edge technology and specialized expertise, alongside a team that understands the unique challenges and needs of the healthcare sector.

To learn more about Xerox® Products, Solutions, and Services, and our preferred pricing for healthcare organizations through our Premier membership, contact your Authorized Xerox Reseller today.

## GET MORE FROM YOUR OFFICE TECHNOLOGY

Our familiarity with healthcare compliance, patient confidentiality issues, and the necessity for efficient document management means we offer solutions tailored to the specific demands of healthcare practices. Contact us to learn more about:

- How apps on your MFP can modernize fax to rapidly share critical patient information across the care continuum
- How our unique security features increase patient data protection and compliance

Xerox is an authorized supplier of the Premier Inc. group purchasing contract.
